

VOLUNTEERING

MAKE AN IMPACT ON SOMEONE'S LIFE

Volunteers at Plymouth Place provide **companionship, friendly assistance and support** to the lives of residents throughout our community. We work with you to find where you feel most comfortable to offer assistance based on your talents, interests and what you are able to offer. No matter how you choose to help, know that this experience **will add value and joy to all the lives you touch**...including your own.

Volunteer opportunities include:

- Reading, listening to music or conversing with residents.
- Accompanying residents to Plymouth Place events.
- Engaging with residents during activities and games.
- Maintaining the upper-level gardens.
- Lending a hand in The Marketplace gift shop.

The benefits of volunteering:

- Be part of a premier, vibrant, senior living community.
- Learn about healthcare related careers.
- Share your talents and skills.
- Gain educational in-service training.
- Receive free flu and Covid vaccinations.
- Feel the satisfaction gained from helping others.

SOMETHING FOR EVERYONE

Our robust group of volunteers (ages 16+) offers a diverse range of talents, experiences and unique skills to **enhance people's lives throughout Plymouth Place**. We can easily accommodate your schedule for weekly or bi-weekly visits.

Volunteers can be **individuals, families or organized groups** (service groups or church organizations of 15 people or less). The best candidates are self-starters who are comfortable around older people and take direction well.

Let's talk! To **learn more about joining our volunteer program**, call Kathleen Jurek, Community Engagement Specialist, at **(708) 205-0039** or email **kjurek@plymouthplace.org**.
